

## World Optometry Day 2018

World Optometry Day this year was celebrated at a majestic scale. On 22<sup>nd</sup> of March 2018, we at Laxmi College of Optometry took another step towards encouraging our students in exploring their potentiality in an innovative manner with an intellectual yet fun-packed set of academic and extracurricular event

- ❖ **Extempore** : The theme of the Extempore was *Awareness and knowledge about Optometry* based on the following topics
- “Role of an Optometrist in spreading awareness about Optometry as a profession in the society”
  - “Medical ethics and law”
  - “Aid of an optometrist to various professions and occupations”

The purpose of conducting this event was to instigate the students to use their knowledge and skills to convey their thoughts outright at a platform.

- ❖ **Debates** : The theme of the Debate was *Students Perception about Technology and Health care* based on the following topics
- “Modern Technology: a boon and or bane for human eyes”
  - “Merits and demerits of screening camps in eye health”
  - “Hard copy reading versus softcopy reading”

The purpose of conducting this event was to develop analytical line of thought within the students and to make them think out of the box.

❖ **Clinical Video competitions**

❖ **Clinical Image competitions**

To add some zest to the occasion, a round of sports events were conducted.
